Framing Plan

Built by Hand. Backed by Heritage.

Thirty years of craft for a lifetime of memories.

For over three decades, we've built the way things were meant to be built, by hand, with skill passed down through generations of Amish craftsmen who know the difference between done and done right.

Every beam is chosen. Every joint tested. Every line drawn to stand the test of time. We use better materials, heavier builds, and details you can feel - because true craftsmanship never hides behind paint or polish.

What rises from that work is more than a structure. It's a promise, of strength, of beauty, of belonging. A place made to gather, to breathe, to last.

Country Lane Gazebos

Built by hand. Proven by time.

PAVILIONS

Always a hub of activity, the pavilion is at the center of outdoor entertaining. Whether dodging the sun, waiting out a summer shower, or sitting down for a meal, people will gather together in your new pavilion.

Choose between the natural beauty of wood or the convenience of low maintenance vinyl pavilions. Available in many styles, our pavilions will host countless family gatherings, social events, and relaxing evenings for years to come. Add character to your outdoor living space with a custom-built pavilion today.

VINYL

HAMPTON PAVILIONS

Our Hampton Pavilions are made from #1 grade pressure treated Southern Yellow Pine which is wrapped in high quality vinyl. The Hampton comes standard with attractive 10" tapered columns and solid wooden posts inside. The posts come with powder-coated anchor brackets at the base of each column to attach directly onto your concrete pad. Our decorative post trim covers all the connections for a clean appearance. The arched headers add charisma and are designed to support heavy roof loads, and resist high winds. The headers are trimmed with our decorative dental molding and feature a 12" roof overhang. The ceiling is made of beautiful 1x6 tongue and groove boards, stained mahogany for a rich appearance. The steeper 7.5/12 roof pitch adds character and is constructed with double hip rafters and covered with architectural asphalt shingles. Our Hampton Pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads.

Pavilion Design Options Pg. 24-27

WOOD

ALPINE PAVILIONS

Our Alpine Pavilions are made from Western Red Cedar with a Southern Yellow Pine internal structure. All boards are hand-selected for the best possible appearance. The 8x8 posts are built with a structural pine interior and wrapped in cedar to resist warping and checking. The posts come with a black powder-coated bracket at each base to attach directly onto your concrete pad, and are covered with a decorative skirt for a finished look. The 4x8 half-moon braces add beauty and lateral strength to resist high winds. The engineered 3-ply 6x8 headers are built to span up to 16' long without sagging. The roof is engineered with 2x6 Southern Yellow Pine rafters for structural integrity and comes with a 10/12 pitch on units 16' wide and smaller, and an 8/12 pitch on units 18' wide and larger. We use 1x6 Southern Yellow Pine tongue and groove boards for the ceiling, covered with architectural asphalt shingles. Our Alpine pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard for a strong and beautiful structure.

VINYL & WOOD

TRADITIONAL PAVILIONS

Our Traditional Pavilions, available in vinyl or wood, are built from #1 grade pressure-treated Southern Yellow Pine and engineered for lasting strength and beauty. The vinyl option features heavy-duty 6x6 wood posts wrapped in low-maintenance vinyl, while the wood version uses laminated 5x5 posts that resist warping and checking. Both styles include powder-coated brackets for secure installation on a concrete pad, finished with decorative skirts for a clean look. Arched braces on the vinyl and half-moon braces on the wood add stability and charm, while decorative post trim conceals hardware for a polished appearance. Engineered headers span up to 18 feet without sagging, and double main rafters add structural integrity. Ceilings are finished with 1x6 tongue-and-groove boards stained mahogany in the vinyl option, or left unfinished in wood for custom staining or painting. A 6/12 roof pitch and architectural asphalt shingles come standard. All Traditional pavilions are rated to withstand 140 mph winds and 45 pounds per square foot snow loads, delivering long-lasting durability in any climate.

Pavilion Design Options Pg. 24-27

Sizes, Posts, Colors, EZ Shade, Villas, Roofing, & Accessories

LEFT (Anchor Brackets) All pavilions come with the required anchor brackets and concrete lag bolts to attach to footers.

MIDDLE (Post Trim, Brace & Headers) Vinyl Pavilions come with these decorative parts that combine for an elegant look.

A-FRAME PAVILIONS

Our A-Frame Pavilions, available in both vinyl and wood, combine timeless style with dependable strength. Each is built from #1 grade pressure treated Southern Yellow Pine and engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. Vinyl models feature laminated wood posts wrapped in low-maintenance vinyl, while wood models offer unfinished laminated posts ready for paint or stain. All posts include powder-coated brackets, decorative skirts, and post trim for a clean, finished look. Reinforced braces add both charm and structural stability. Engineered headers span up to 18 feet without sagging, supported by double rafters. Ceilings are lined with 1x6 tongue-and-groove boards stained mahogany in the vinyl option or unfinished in wood—and topped with a 6/12 pitch roof and architectural asphalt shingles. Whether you prefer the classic silhouette of a Traditional Pavilion or the peaked elegance of an A-Frame, every model is designed for years of worry-free outdoor enjoyment.

GRAND ESTATE PAVILIONS

Our Grand Estate Pavilions, available in vinyl or wood, are designed to make a bold statement with wide, open spans up to 24 feet. Both styles feature massive 8x8 posts, elegant curved braces, and laminated 2x6 headers with a 2x8 fascia board for added detail. The roof boasts a steep 7/12 pitch, constructed with heavy-duty 2x10 rafters and finished with 1x6 tongue-and-groove decking, all topped with architectural asphalt shingles. Vinyl models offer color options for a clean, low-maintenance finish, while wood versions bring natural beauty and timeless craftsmanship.

BELLAVUE PAVILIONS

Handcrafted in Lancaster, PA, the Bellavue Pavilion Collection combines modern style, exceptional craftsmanship, and unmatched versatility, with over 100 configurations to fit your vision. Choose premium cellular vinyl for low-maintenance durability or genuine rough sawn cedar for natural warmth; each structure is engineered to withstand 140 mph winds and 45 lb/sq ft snow loads. The sleek Hip Roof style offers an innovative brace free design for limitless customization, while the A-Frame brings the same strength with a distinctive roofline and the option for open, closed, or screened-in gables. The Octagon style blends the charm of a traditional gazebo with contemporary flair, featuring a optional pagoda roof with cupola, customizable walls, and optional metal railing. Whether for a backyard retreat, event space, or commercial property, the Bellavue Pavilion Collection transforms any outdoor setting into a stylish, lasting retreat.

VILLA PAVILIONS

The Villa Option is available with our Traditional Wood, Traditional Vinyl, and Hampton Pavilions. These Villas come standard with an unfinished interior perfect for storage or add the option of horizontal 1x6 T&G boards and a linoleum floor to create a back yard office or getaway. The finished interior option comes with a switch to control power to the ceiling and includes electrical receptacles spaced to meet code requirements.

All of our Villas are built strong to meet many of the codes required by local townships. The Villa includes one 15-lite single door.

Add optional windows to fit your needs. The windows and doors include insulated glass, trimmed with 1x3s for added elegance. The Vinyl Villa includes Dutch lap vinyl siding available in eight different colors. Our Wood Villas are available with knotty pine siding. Add one of our many stain or paint options to match your home.

Mix and match wall configurations on a single unit to meet your exact needs for a completely custom look.

FENETEX
MOTORIZED SCREENS

Fenetex motorized screens are a premium, upgrade that adds comfort and versatility to your outdoor space. Built for durability, these screens offer protection so you can enjoy your pavilion throughout the year. Available in a range of configurations and fabric options, including Sunbrella and insect screens, Fenetex screens integrate seamlessly with our Bellavue Pavilions for a clean, finished look. With the push of a button, transform your space into a flexible, all-weather retreat.

Control multiple screens simultaneously with a single wireless remote.

PERGOLAS

Pergolas aren't just for those seeking shade; they are also for those desiring character and style. Whether your patio demands the elegance of a bold stately structure, your garden needs a charming centerpiece, or you're simply looking to define a space to enjoy the ambiance of a cool evening, a pergola is the answer you have been searching for. With its many styles, the pergola offers a solution for any outdoor space.

HOLLANDER PERGOLAS

Our Hollander Pergolas bring a modern edge to a timeless design, pairing clean lines with exceptional craftsmanship. The Vinyl Hollander is built from #1 premium-grade, pressure-treated Southern Yellow Pine, sleeved in low maintenance vinyl for lasting beauty. Sturdy 6×6 posts with decorative skirts conceal the anchoring brackets and bolts, while double 2×8 headers support 2×6 rafters and 1×3 stringers. Clean-cut corners and custom laser cut steel brackets add a refined touch. For a warm, natural aesthetic, the Wood Hollander uses the same premium Pine with 5×5 posts, double 2×8 headers, 2×6 rafters, and 2×4 stringers. Whether in vinyl or wood, the Hollander offers strength, style, and a versatile design perfect for any outdoor space.

RING OF FIRE PERGOLAS

The Ring of Fire Pergola is a hexagon-shaped structure designed to be placed over a fire pit, available in Rough Sawn Western Red Cedar lumber or low maintenance vinyl. It stands on six solid 6x6 posts, with heavy-duty headers connected at each corner using custom powder-coated stainless steel brackets, providing a sturdy framework capable of supporting bench swings or poly post tables attached to any post. Its open top design allows smoke to rise freely while maintaining an inviting, airy feel. Optional black poly or cedar post skirts are available to complete the finished look. Ideal for parks, campgrounds, or backyard relaxation areas, the Ring of Fire Pergola combines durable, high quality construction with functional versatility, creating the perfect gathering space.

VINYL & WOOD

ARTISAN PERGOLAS

Our Artisan Pergolas combine timeless style with lasting strength, available in low maintenance white vinyl or richly stained rough sawn Western Red Cedar. Both feature standard solid 6x6 pressure-treated wood posts sleeved in vinyl with decorative base and capital, double 2x8 headers on all four sides for a finished look, and full width 2x6 rafter joists with 2x4 purlins for balanced design and durability. Vinyl models offer worry free care with wood components sleeved in vinyl for a clean, non-sagging appearance, while cedar models are pre-stained in your choice of standard colors with notched joists and purlins to resist warping. Engineered anchor brackets are included for secure installation on concrete pads, making the Artisan Pergola a refined and enduring centerpiece for any outdoor space.

EZ SHADES

Looking for extra sun coverage? We got you covered. Add an EZ Shade product to your outdoor structure and maximize your shaded space. Our manual, one handed curtains and canopies can offer full coverage on a mid-sunny day. These curtains and canopies are made of durable, easy to clean fabric that's mildew and stain-resistant.

EZ SHADE CANOPY

Westfield Mushroom

EZ SHADE CANOPY
Burgundy, Black, & White

EZ SHADE

CANOPY SYSTEM

Consider adding this EZ Shade Canopy System to your new or existing pergola. This manually controlled canopy glides effortlessly across the triple track system to shade the entire area. You'll find yourself using your patio more often when you can block out the hot mid-day sun or enjoy protection from a light rain.

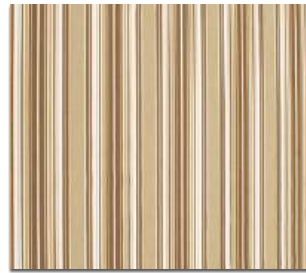

Our fabric sheds water and is water-resistant but not waterproof beyond complete saturation.

Choose from one of our available stock colors shown to the right. Other Sunbrella® fabrics are available for an additional fee. Bring this EZ Shade Canopy System to your backyard oasis.

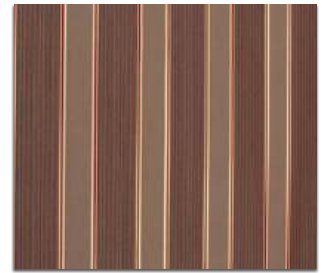

LEFT (Manual Operation) Our EZ Shade Canopy glides smoothly for easy operation.

MIDDLE (Quality Materials) Made from aluminum with stainless steel hardware, and Sunbrella fabric.

RIGHT (Full Coverage) Get out of the mid-day sun and enjoy your backyard patio.

EZ SHADE

CURTAIN SYSTEM

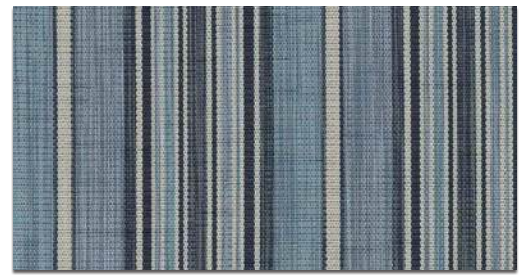

Consider adding this EZ Shade Curtain System to your new or existing pergola or pavilion. This manually controlled curtain winds down effortlessly and glides down the double cable system to shade the entire area. When not in use the fabric stores inside a custom stained or vinyl box. You will find yourself using your patio more often when you can block out that glaring afternoon sun. The fabric is a dense screen material that has partial transparency. Bring this EZ Shade Curtain System to your backyard oasis.

Choose from one of our available stock colors shown to the right. Other Phifertex curtain fabrics are available for an additional fee.

LEFT (Full Coverage) Get out of the mid-day sun and enjoy your backyard patio.

MIDDLE (Manual Operation) Our EZ Shade Curtain is guided by stainless steel cables and lowered using an included hand crank.

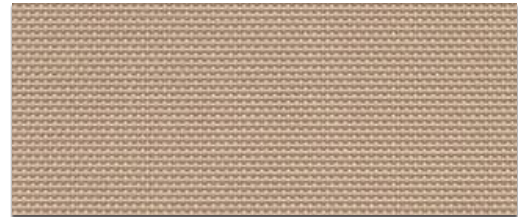

RIGHT (Quality Materials) Made from stainless steel fasteners, powder-coated brackets, and Phifertex fabric.
